- Delivery dates that are expedited by the customer to any date prior to the date described by the quotation/estimate, will result in an expediting fee.
 - Request for a deferral of shipment will be accommodated up to 30 calendar days from the original agreed upon delivery date. After the 30 calendar days, the shipment will be charged to the customer and may incur a inventory fee.
- The quoted/estimated pricing only applies to the lot quantity specified in quotation/estimate, any deviation to a lower quantity will result in a requote.
- Unless otherwise specified, the components and assemblies are quoted completed per the print or RFQ requirements/instructions. Any deviation of requirements, or revisions not stated at the time of the RFQ will result in cancelation of the quotation/order and will require a requote.
- Any components or assembly components that are noted as "Non-Returnable" or "Special Order" will be charged up to 100% of the quoted price in the event of an order cancellation.
- Any customer that will be required to provide payment "Cash in Advance," "Payment Upfront," "Due Upon Receipt," "Deposit Required of x.xx%," or any other variation of phrasing of "payment being due prior to work completed," materials, tooling, etc. will not be ordered for production until funds are received and cleared in our account.
